

## Job Description

# Application & Sensory Support Associate

Working at Cargill is an opportunity to thrive—a place to develop your career to the fullest while engaging in meaningful work that makes a positive impact around the globe. You will be proud to work for a company with a strong history of ethics and a purpose of nourishing people. We offer a diverse, supportive environment where you will grow personally and professionally as you learn from some of the most talented people in your field. With nearly 150 years of experience Cargill provides food, agriculture, financial and industrial products and services to the world. We have 150,000 employees in 70 countries who are committed to feeding the world in a responsible way, reducing environmental impact and improving the communities where we live and work. Learn more at [www.cargill.com](http://www.cargill.com).

## Job location(s): Mouscron

The Application and Sensory Associate provides practical support and executes on both the Application lab and the Sensory commitments:

- For the Application, the position will coordinate, execute and organise the work, the follow-up and communication
- For the Sensory, the position will support the execution of sensory tests

## Major Tasks

### *Sensory*

The role will support the Sensory lead by preparing samples(ensuring Food Safety standards) and questionnaires, running sensory tests and reporting activities. The Sensory Associate will also support in the preparation of the training sessions and ensure the presence of testers during daily tests. The Sensory Associate will work in interaction with the Sensory lead.

### *Application & Prototype Support*

For the Application, the position will receive, coordinate, and lead requests to be handled by the Application lab. The Application Associate will support the Application and Pilot plant manager to deliver a smooth, flexible, reliable and expert work so that our customers will receive or see excellent prototypes. The Application Associate will ensure to have all projects documented and communicated. The Application Associate can formulate ideas for improvement and suggest some ideas on the application capabilities to be built. The Application Associate will work in interaction with our "Chocolatier chief" by preparing some prototypes or applications samples.

### *Sampling Lead Support*

As back-up of our Sample and Store coordinator, you will manage samples requests by sample sending preparation. Including meeting R&D Food Safety standards.

## Qualifications

- Degree food technology in science field (e.g. food science, food technology)
- Experience in chocolate processing is strongly preferred
- Strong listening, communication skills and practical hands-on approach in problem solving
- Flexible, positive, open-minded and result driven
- Good interpersonal skills and team worker, with the ability to well function independently when necessary
- Ability to communicate and cooperate with cross-functional teams within the organization
- Good communication and prioritization skills.
- French as a team language
- Fluent in English

## **Our Offer**

In return for your expertise and commitment, we will provide a fast paced stimulating international environment, which will stretch your abilities and channel your talents. We also offer competitive salary and benefits combined with outstanding career development opportunities in one of the largest and most solid private companies in the world.
